I am here at StudyExpo today in Istanbul European Side. I have been attending to StudyExpo for the past 3 years and I believe that StudyExpo has become one of the strongest fairs in the market. I believe today was really good in terms of traffic and students' quality. The weather was not amazing, but regardless of the weather we had some really good leads and I believe we are going to get some good bookings. StudyExpo is really exceptionally organized. They managed to raise the bar, they have really good standards and obviously other fair organizers will have to compete with that.

This is the 3rd time we have attended the event of StudyExpo and we go all of the cities. It is incredibly well organised event and they always have lots and lots of students, even if the weather is not good. I truly recommend coming to this event as a school for sure. We also get bookings directly after fair what is fantastic as well.

We are English language school located in Atlantic Canada in a beautiful Atlantic Ocean. This is our first time at the StudyExpo, so far we really enjoying ourselves, there is a great crowd, fantastic leads, students and parents that are committed to going overseas, many of which are interested in going to universities, which is fantastic for us, because they have to fill language requirements first. There also many students interested in summer camps and general ESL programs. It has been a fantastic weekend with great food and great people. The StudyExpo house been wonderful and very helpful and we are looking to coming back. Of course we are looking all wonderful Turkish students that will soon be coming to our school.

The organization here is just perfect. We don't have to worry about anything. The brochures have arrived on time and the whole set-up is great; especially the stands are beautiful. The students just don't stop coming. There was a queue yesterday over one-kilometer-long outside the building. I have not stopped working and talking to students today. There are many prospective students, asking sensible questions about studying in France. They are very knowledgeable and are not wasting time. They come here with a project in mind for the summer. It's been absolutely fabulous.
